

ENFINITY RETAIL

Connect the sale to the handover.

For retail teams handling point-of-sale activity, cash sessions and fulfilment.

CAPABILITIES IN THE CURRENT SOURCE

01

Point-of-sale operations

Dedicated sale and cash-session services organize the store's transaction work.

02

Order placement

Place and retrieve omnichannel orders through the retail order service.

03

Picking and readiness

Move orders into picking and mark them ready for collection or handover.

04

Handover and cancellation

Record the handover step or cancel eligible orders within their lifecycle.

One product family. Distinct business responsibilities.

Source-reviewed capabilities, not a promise that every feature is enabled in every edition or deployment.

FROM CAPABILITY TO DAILY WORK

A practical workflow.

- 1 Place an order
- 2 Start picking
- 3 Mark ready
- 4 Hand over

WHERE THIS PRODUCT FITS

POS hardware, payment terminals, offline behaviour and store-specific integrations must be validated for the intended rollout; their availability is not inferred from service presence.

AVAILABILITY AND REVIEW

The capabilities described here have implementation evidence in the local Nova source reviewed on 5 September 2026. This is not a live deployment test, security certification or country-compliance sign-off. Confirm edition, configuration and acceptance criteria with the product team. Planned capabilities are excluded from the feature list.

SOURCE BASIS

PointOfSale / OmnichannelOrderService.cs

PointOfSale / SaleService.cs

CashSessions / CashSessionService.cs

Nova working-tree implementation. Legacy v84 PDFs were not used. Detailed file provenance accompanies this brochure collection.
